**Subject:** Flood at Andover Rd junction with Bereweeke Rd, Winchester - Inc' No' 305 of 31/03/13

Dear Jason,

I just wanted to say a huge thank you for your time and invaluable assistance this morning for the burst water main along Bereweeke Road, which subsequently flowed like the River Itchen onto Andover Road.

The burst water main and flood caused mild disruption to motorists and pedestrians, and certainly your assistance in organising the sand bags in-front of the retail premises and takeaway restaurants along Andover Road opposite Victoria Road was invaluable in preventing the premises from flooding.

Its not often we get to work alongside such volunteers, but I am truly grateful for all the hours you and your team spared this morning, more so as its Easter week-end, and also for helping me with traffic control, pacifying angry motorists, and most importantly carrying the old lady across the flood so she could go to church! Your place in Heaven has been reserved!

I have cc'd my Sergeant and Inspector in on my email, as I feel its only fair they're made aware of you and your team's selfless efforts this morning.

Kind Regards,

Amie
