

16 January 2015

Dear supporters,

I wanted to personally express my heartfelt thanks to the Plymouth Brethren Christian Church for your support of UNICEF in conjunction with Qantas' during November and December 2014. The final donation amount of \$34,573.56 is truly an amazing figure and will go far in providing life-saving support to thousands of the world's poorest and most vulnerable children.

In 24 years that the Change for Good program has been aboard Qantas flights, an astonishing \$29 million has been raised for children in need. Your support of the program will contribute to this enduring achievement and is greatly appreciated.

In recent years the Change for Good program has helped UNICEF deliver emergency aid to children devastated by the Typhoon Haiyan in Philippines, the war in Syria and – most recently – strengthened UNICEF's response in eliminating the Ebola outbreak in West Africa.

17 cents is all it takes to vaccinate a child against a life threatening disease such as polio, 50 cents to supply a book and pencil to a school pupil and just 5 cents to provide a child with clean water for two days. As such the donations collected from Plymouth Brethren Christian Church will go a long way in helping UNICEF to deliver quality education, provide clean water as well as lifesaving health care to thousands of vulnerable children.

Change for Good's impact on children's rights is only achievable with the enthusiasm and input from people like you and your committed team.

We appreciate this invaluable support and offer our sincere thanks.

Warm regards,

Norman Gillespie
Chief Executive UNICEF Australia
