Subject: Messege of thanks...

Ben,

Just a quick note from my shift and me to express our gratitude for the support offered during the incident at the Clutha Vaults in Glasgow.

Over the last few days it has been exceptionally difficult for all the emergency services and indeed the greater Glasgow community. However the work the response team carried out at this time was amazing and made our work slightly easier. Ensuring we stayed refreshed and always had a friendly smiling face over at the Glasgow sheriff court certainly helped me in maintaining my focus.

In my career as a police officer I have never experienced support from the wider Glasgow community in such a way as I have over the past few days. A sentiment that will remain with me for the rest of my days.

Now this incident is drawing to a close and we are able to reflect and try to move on I just wanted to drop you and your colleagues a note of thanks.

Once again thanks for all your support at one of the most challenging incidents the emergency services have faced, certainly one of the most in my career thus far as a police officer.

Kind regards

**Davy Elliott**
