Dear Mr Larkin

I should like you to know that the Trailer Caravan which your Works produced for me has come ashore safely in France, and since I came over here I have been using it to the full as my Operations Room. There is no doubt that you have produced a most excellent vehicle, and one which has already proved of great value to me.

I should like you and all your men who worked on this vehicle to know this, and to know how grateful I am to them for making this vehicle for me.

Yrs. sincerely,

B. L. Montgomery
